

Transformer Services

Dedicated People, Quality
Products, and Above All, Service.

Transformer maintenance and proper installation of power transformers are critical for extending the life of your transformer. Our skilled, experienced technicians install, assemble, and vacuum-fill new and rebuilt transformers.

L&S Power Service Technicians perform a variety of other maintenance services, which include oil sampling and testing, oil retrofilling, regasketing, bushing replacement, radiator replacement, welding repairs, load tap changers, and transformer painting.
