Four-In-One Motor

The Four-In-One motor is a new versatile replacement motor where one motor can be used for the following four basic applications:

- Drip-proof
- Totally Enclosed
- C-Face Mounted
- Horizontal Rigid Base

You can reduce your inventory carrying costs and increase your flexibility to satisfy more applications. Only one motor needs to be stocked instead of several. The available ratings are 1/3 to 2 HP, 1725 RPM. Single-phase motors rated 115/208-230 VDC; and three-phase rated 208-230/460 VDC, 60/50 Hz.

Features

- Totally enclosed, three-phase
- C-Face with rigid base and C-Face with removable base (Four-In-One)
- Ball bearings mechanically locked on shaft end
- 1.15 service factor
- CR200 corona resistant magnet wire
- Bolt-on, removable rigid base
- Suitable for horizontal and vertical mounting
- 56-145T frame motors will accept brake kits, except as footnoted
- Will accept drip cover kits
- UL® recognized and CSA certified
